Introduction

The OpEx Group is certified small business joint venture partnership formed between Dynamic Pro, Inc. (DPI) and Systems Planning and Analysis, Inc. (SPA)—two companies possessing extensive experience supporting local, state, regional, and federal organizations in the healthcare, safety, and security domains.

The OpEx Group has a pool of staff composed of approximately 500 program managers, research analysts, systems engineers, evaluators, domain-specific subject matter experts, organizational design experts, financial managers, technical writers, communications experts, and administrative personnel. These seasoned professionals support customers at sites throughout the DC metropolitan area as well as 20+ locations across the United States.

Major Clients

Integrated Solutions

We specialize in developing integrated solutions, informing decision makers through a combination of program management, rich technical and operational expertise, and analytical insights to yield proven justifiable results.
